With this issues paper, the Commission is seeking views in relation to its draft subject based inventory comprising 1,400 entries organized under 38 subject heading. This inventory forms part of the Commission's project in its Fourth Programme of Law Reform concerning the domestic implementation of international obligations. Although the vast majority of the entries have been derived from the Department of Foreign Affairs and Trade's Irish Treaty Series (ITS), it includes international agreements which the State has signed as well as those it has ratified. In addition, the Commission's Inventory has attempted where possible to link each entry with corresponding domestic measures in Acts, and as the case may be, statutory Regulations. The Commission's Inventory is a working draft and it is being published on the Commission's website as a basis for public discussion. It will be updated and supplemented where necessary. All interested parties are invited to submit feedback on this inventory by contacting the Commission at the dedicated email address created for this purpose.
